## Raymond Cheese Factory Board Chosen

### LIONS CLUB NOTES

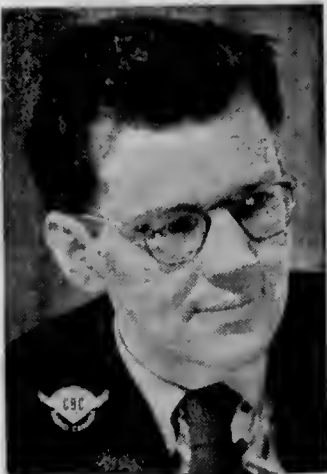

A well attended and enthusiastic meeting of cheese factory supporters was held in the Town Hall Monday night, when about 75 gathered to take part in the discussions and the selection of a Board of Directors for the Raymond Co-operative Cheese Factory, Limited.

A. W. Jones was Chairman of the meeting and outlined the purpose of it, and also rehearsed what had been done in the matter of assembling information regarding this industry, also visits to other plants, progress so far made, and stated that before permission to sell shares and go ahead with construction could be obtained, it would be necessary to name a Board of Directors so that an organization could be set up and when that was accepted by the provincial authorities, work then could be started.

The whole set-up came in for a pretty thorough combing by way of the question route. Questions were asked respecting prices for milk, what effect lowering of prices might have on production, whether or not sufficient milk had been guaranteed to keep the plant operating, if the change to a butter-making plant would be possible in the event of the cheese market proving over supplied, and so on. These questions were all answered.

The question too, of locker storage came in for considerable discussion, and it was the sentiment of the meeting that locker storage be included in the set-up if all things were favorable, and at the close of the meeting, everyone intending to rent lockers were asked to sign their names, as a covenant with the Directors, that they could count on them for financial support in the immediate payment of a year's rental if this feature were proceeded with. The prices of boxes, the size of same, practical

ANDREW COWAN

Formerly Talks Producer at CBC's Prairie Region headquarters in Winnipeg, whose transfer to Vancouver, as Talks Producer for the Western Region was announced recently.

### H.J. FROMM TRANSFERS

LAC H. J. Fromm is home on ten days leave winding up a few details here before he leaves for Lakeside, Cal., to enter the United States Air Force, having transferred, along with thousands of others in air training across Canada, to take up their work in the United States.

He will have his Corporal's stripes on his U.S. uniform when he dons it, having been promoted on merit at the time of the transfer. He is to leave for California from Calgary on the ninth of June.

The regular meeting of the Raymond Lions Club was held in the Sugar Bowl on Monday June 1st, with Pres. R. Pack in the chair.

The meeting opened by singing "Oh Canada" and prayer was offered by Lion R. Dahl, with 23 members present.

Community singing was enjoyed by all which was led by Lion Tamer J. McLean.

A letter was read from Mrs. O. H. Snow thanking the club for the flowers which she received during her illness.

The Red Cross Society had asked some of the Lions to do collecting for their campaign and Pres. Pack reported that this had been done.

The Special train was still running to Edmonton for the Convention but owing to war restrictions no special rates would be allowed but a Fare and One Third would be charged for the return trip.

Incoming Pres. P. Moreland requested that a 3rd Vice-President be selected for the coming year. Lion Don Wilde was appointed to the position.

Lions Vel Heggie, Renon Pack, Dean Rolison and Roscoe Baker were presented with full attendance buttons.

The meeting closed early so that members could attend the Cheese Factory Meeting which was being held in the Town Hall.

ice of operation and a host of other questions were answered.

Nominations were called for Directors, it having been decided by vote to have a seven man Board, from which the Chairman and Secretary would be chosen. The meeting was very representative, and the following men were selected to act as Directors on vote of the meeting: E. E. Jensen, A. W. Jones, John F. Salmon, Godfrey Holmes, A. E. Foote, Welling, Edw. M. Kiddle, Stirling and J. W. Evans. A meeting of these men was called for after the adjournment of the public meeting and they organized themselves as follows:

Chairman—A. W. Jones  
Vice-Chairman—J. F. Salmon  
Secretary—E. E. Jensen.

26,282 barrels of crude oil per day is the Turner Valley quota for June. Largest single well production is Major 3 in the north end of the valley with 850.

### MUSIC CLUB MEETS

The Music Club met on June 1st at the home of Mrs. E. E. Keithman with Mrs. Archie Terry as assistant hostess. Vice President Ruby Holland was in charge. The meeting opened by singing "Mr. Churchill" and "I Love You Canada."

A short review of the life of His Majesty King George VI was given by Mrs. Archie Terry followed by a vocal solo "God Bless the King," by Mrs. Scott Salmon.

Articles from the Etude on the life of Kate Smith were reviewed by Mrs. Scott Salmon and Miss Ina Jones and the "White Cliffs of Dover" was sung by Mrs. C. A. Hudson. The group then enjoyed a few minutes of song practice.

The next meeting will be at the home of Mrs. June Allred.

## Annual Stampede July 1st. and 2nd

Regular Board of Trade meeting was held Tuesday night in the Town Hall with a good attendance present. Minutes of last meeting were read and accepted.

Ernest Jensen reported on the recent developments concerning the Cheese Factory, stating that the Board was now organized and that as soon as the Charter was received work would be commenced and sale of stock would be started.

J. O. Hicken read letters to the C.P.R. regarding extra facilities at the stockyards for the handling of the volume of shipping through them each year. A meeting with Company officials from Lethbridge is expected right away.

Reports were made on the Hospital program by Alvin W. Jones and S. I. May and some questions were asked; and this Committee was asked to continue this work and bring it to a successful conclusion.

A long discussion regarding the Stampede and Race Meet took place, with a unanimous vote to hold the regular two day show and to make it the best yet. The situation was gone over thoroughly, the question of riders, so many having enlisted; the question of stock, races, and so on. Regulations re tires and gasoline were also considered, but it was decided that inasmuch as an annual Stampede was a tradition in Raymond, and that this year, more than ever before something should be provided that would give people some recreation and a relaxation from the press of world conditions.

Discussions were made to add interest on the part of local business men and women in the celebration, a Business Men's Derby is being organized. Prizes for this event will come from the Business houses directly, and a purse will be offered that will make this race worth a season's care for any race horse to win it. It was felt too, that the interest of the donors of the purse, and that more help would be received in the organization and staging of the Stampede, the high light of the celebration.

Committees are being lined up now, and advertising will be out the first of the week announcing the big show. Everyone should be boosters for this fine show and make their plans to attend and bring their friends. For forty years, almost without a break, Raymond has staged a Stampede and last year all attendance records were smashed proving the popularity of the show. It is hoped that this year's record will be just as good and that the Raymond Stampede and Race Meet will continue to be one of the best staged in Western Canada. It is up to we of the Town of Raymond to make it a success. Let's do the job right.

## NEWS NOTES

Beet thinners are busy these days when weather permits, and even when the ground is damp and sticky the thinning goes right on to try and catch up on part of the work.

This week has brought another inch and a half of rain to add to the nearly 5 inches that fell in May. Wet, alright, but we have never yet had too much rain in Southern Alberta.

René Mitchell, who arrived here Saturday night on 16 days leave, received word to report for duty at once on the Pacific Coast and he left Tuesday morning.

Chas. Huddle, Raymond old-timer celebrated his 84th birthday on Thursday, June 4th. He is still hale and hearty and we extend our congratulations wishing him many happy returns of the day.

The annual Farm and Home week of the Olds School of Agriculture and the Agriculture Extension Service is to be held from June 22nd to 26th at the Olds School of Agriculture. The Provincial Dept. of Agriculture sponsors this event each year.

People are urged to secure their winter's supply of coal now, in a message issued recently by Premier Aberhart. Demands on labor and also the coal supplies for war purposes makes delay dangerous, and bins should be filled now. Arrangements for extending credit to people who want to stock up now are being considered now with the senior government at Ottawa.

creation and a relaxation from the press of world conditions. that the Stampede be held. The meeting was very enthusiastic.

Discussions were made to add interest on the part of local business men and women in the celebration, a Business Men's Derby is being organized. Prizes for this event will come from the Business houses directly, and a purse will be offered that will make this race worth a season's care for any race horse to win it. It was felt too, that the interest of the donors of the purse, and that more help would be received in the organization and staging of the Stampede, the high light of the celebration.

Committees are being lined up now, and advertising will be out the first of the week announcing the big show. Everyone should be boosters for this fine show and make their plans to attend and bring their friends. For forty years, almost without a break, Raymond has staged a Stampede and last year all attendance records were smashed proving the popularity of the show. It is hoped that this year's record will be just as good and that the Raymond Stampede and Race Meet will continue to be one of the best staged in Western Canada. It is up to we of the Town of Raymond to make it a success. Let's do the job right.

Representatives of Bruce-Robinson Electric were in session with Cheese Factory officials Wednesday re-requirements for the new Factory.

Mr. and Mrs. Dehman O'Brien were home over the week-end and went from here to Banff for a brief holiday. "Dutch" as we all know him is in the Postal Corp. in Ottawa.

Will Redd was in the U.I.D. and Mountain View district Wednesday on Feeder Co business. Mrs. Redd and Mesdames L. D. and T. O. King went to the Alutian islands in Alaska. Damage was not severe and the United States now has another direct social call to repay.

A new chapter was written into the war Wednesday when Jap bombers and fighters visited Dutch Harbor on the tip of the Aleutian islands in Alaska. Damage was not severe and the United States now has another direct social call to repay.

The International Peace Park meeting will be held again in Waterton Park July 11 and 12 because of the retiring International President Tom Davis, and incoming President Fernando Carabajal of Peru, will both be in attendance, it is expected that local Rotarians and their wives will attend practically 100 per cent.

Renn Mitchell and Scott Kinniburgh and their wives, are spending a furlough with relatives and friends in Southern Alberta. Mr. and Mrs. Mitchell arrived Saturday evening and are at the Geo. Court home.

Mr. and Mrs. Kinniburgh stopped in Scott's home town for a few days on their way here. All four are looking fine and are glad to be back in Sunny Southern Alberta.

## Funeral Services For Mrs. A. E. Olsen

### CROP GOOD — SEEDING

Speaking for this district immediately surrounding the Town and to the north, east and west, crop conditions are good. Moisture has been ample and growth, while slow is steady and healthy. To the south on the slope of the ridge wet weather has retarded seeding and at the first of the week not more than half of the wheat acreage was seeded. Some may have been seeded Tuesday and Wednesday, but rain which started again Thursday morning stopped drills once more. It may be that intended wheat area will have to be seeded on oats or barley. Hay crops and pastures are doing fine.

Sugar beets are growing nicely and thinning is in progress when weather permits. Unless the rain lets up there will be a big rush to clean the beets out and keep ahead of the weeds. Numbers of the Japanese moved in here from the coast are getting a new experience in thinning beets, and are finding it quite different from the work to which they are accustomed. They seem to be working in all right and accepting the new conditions as something that neither them nor their employers are responsible for and both factors are doing their best. Additional housing has had to be provided on a number of farms and where this has been necessary, the B. C. Securities Commission has assisted in providing the lumber.

Services over the remains of Mrs. A. E. Olsen, who passed away Sunday evening after a long and lingering illness, were held in the First Ward Chapel Thursday afternoon at 2 p.m. with Bishop J. O. Hicken in charge. Ira McBride was in charge of the singing with Roi Stone at the organ.

Opening prayer by Elder I. B. Robert, and the benediction by Elder O. H. Snow. Hymns by the Choir were: "The Deepening Trials," "Abide With Me" and "Nearer My God to Thee."

Speakers were Elder C. E. Allred and Bishop J. O. Hicken. Elder Allred spoke of his long years of acquaintance with the family of deceased and spoke on the first principles of the Gospel, especially the Resurrection. Bishop J. O. Hicken spoke of the mother love of deceased and the sacrifices she had made for her children. He thanked all present for their kindness during the sad bereavement and offered condolences to the sorrowing husband and children.

An organ solo by Roi Stone was rendered between the talks. Relative were present from Coutts, Alta., Wardner B.C. and the many relatives from this district. Interment was in the local cemetery.

We extend our sympathies to the sorrowing husband and children in their sad bereavement.

Born to Mr. and Mrs. Rhinold Thur. Tuesday, June 2nd, a baby boy. Mother and son are doing fine.

### TRACK MEET JUNE 12th

Raymond High School will hold its Track Meet on Friday, June 12th, and nearby schools are being invited to join with the local students. A full program of Track and Field events will be held commencing at 2 p.m. in the afternoon.

The day will conclude with a Dance at night, the last of the High School dances of the season. Music will be furnished by Nolan's Canadians, and the dance is expected to be held on the 2nd Ward Open Air Pavilion if weather permits or otherwise in the Opera House. A good day is planned by those in charge and visitors from other towns are expected in force.

### CONGRATULATION TO MRS. S. HOLMES

On Sunday, May 31st, Mrs. Sarah Holmes reached her 80th milestone, and members of the family sponsored a dinner and get together to celebrate the occasion, and wish their mother many more happy birthdays.

A birthday dinner was served and the afternoon spent in visiting. Besides Mrs. A. Winkler and Myron and Godfrey, all of who live here, Mrs. Ethel Hall of Taber and Mrs. Mitchell of Salt Lake City were here. With her many friends, we extend our heartiest congratulations to Mrs. Holmes, who is enjoying excellent health at this advanced age.

Services over the remains of Mrs. A. E. Olsen, who passed away Sunday evening after a long and lingering illness, were held in the First Ward Chapel Thursday afternoon at 2 p.m. with Bishop J. O. Hicken in charge. Ira McBride was in charge of the singing with Roi Stone at the organ.

Opening prayer by Elder I. B. Robert, and the benediction by Elder O. H. Snow. Hymns by the Choir were: "The Deepening Trials," "Abide With Me" and "Nearer My God to Thee."

Speakers were Elder C. E. Allred and Bishop J. O. Hicken. Elder Allred spoke of his long years of acquaintance with the family of deceased and spoke on the first principles of the Gospel, especially the Resurrection. Bishop J. O. Hicken spoke of the mother love of deceased and the sacrifices she had made for her children. He thanked all present for their kindness during the sad bereavement and offered condolences to the sorrowing husband and children.

An organ solo by Roi Stone was rendered between the talks. Relative were present from Coutts, Alta., Wardner B.C. and the many relatives from this district. Interment was in the local cemetery.

We extend our sympathies to the sorrowing husband and children in their sad bereavement.

Born to Mr. and Mrs. Rhinold Thur. Tuesday, June 2nd, a baby boy. Mother and son are doing fine.

Bill Hague has been off work for ten days with neuritis in his arm. During his illness Linden Larson has been looking after the dairy herd at the Hospital.

### SULTRY SONGSTRESS

Gwen Bradshaw was a member of a carefree party at a high school dance in Winnipeg when she made her debut on a dare. She sang a number with the band playing the latest popular hits for the youngsters. She wasn't nervous then, and she isn't nervous now, but she is just as excited about singing on the air as when she first started professionally in Geoffrey Waddington's "Swinging Strangers." That was away back in 1939 A.D. Now she is the singing star of "Tunes for Today," heard Wednesday at 9.45 p.m. CDT (8:45 p.m. MDT) with Albert Pratz conducting, Sam McKeown arranging. That's not enough singing for Gwen. Every spare hour finds her doing concert for the men in the Canadian forces. She's brunette, she's sultry, she's National.

### HANDING IT BACK

Saturday night, 1,250 bombers roared away from airfields across Britain to return, with interest, some of the visits of the Luftwaffe over London in 1940 and 1941. For an hour and a half, Cologne, the "Target for Tonight" was hammered with bombs from small incendiaries to bombs weighing 4,500 pounds and capable of wrecking buildings over an area of a square block. The flames rose high in the sky and the glow could be seen 150 miles after the raiders had dumped their missiles and the fires got under way. The greatest United Nations raid of the war to date by long odds.

Not a pleasant thing to rehearse, we know. But, Hitler

and his fiendish partners have been asking for this ever since war was declared in September 1939, and it must be a source of satisfaction to every true Britisher to feel that the day has come when we have at least reached air parity with the Axis. Starting from scratch, as it were, our leaders with the help of the heroes of the air who have been carrying on in the face of great odds, have gradually banded together ships and men that were able to hand out such a decisive bombing. The spirit of Britain only needs stirring occasionally to exhibit a spirit of conservation to a job that must be done that has always and will always spell success. There must be some satisfaction, too, in the hearts of bombed Britains to feel that Germany, while sympathizing with the rank and file of the people, is experiencing what the otaiweeben-iord tuihyprethellit-brave people of Britain went thru constantly for so many weeks while the blitzkrieg was at its height. Britain asks now whether Germany can take it as well as she was able to dish it out? We wonder.

on other fronts too, the interest of Nations seem to be at least holding their own. In Libya, Rommel and his men are paying dearly for their efforts to break Allied power in Africa. The Japs are advancing in the Burma-China sector a little, but are paying a very high price for every advance they make. Their air power is suffering crushing blows from the Allies, who despite fewer ships, seem to have superiority in man power and striking ability that is a headache to the men of Japan. Australia, still in a dangerous position, is strengthening her defenses every day, and receiving aid in a steady stream from the United Nations so that their position today is not near what it was two months ago.

The Russians are pinning Hitler's ears back real close and tight. His big spring "offensive" has been turned into a "defensive" and he is fighting now to retain what he has. All in all the picture brightens steadily for the defenders of freedom and democracy. "Right will prevail."

At Rotary on Monday Lee Brewerton gave a vocational talk on movies, his information re-manufacture, distribution & booking of pictures, and the advancements every year in the matter of improved showing was very interesting.

## Red Cross Doubles It's Quota

Total subscriptions to the Red Cross drive in Raymond and immediate district now total \$2,250.00, and several canvassers have not as yet made their report. When all returns are in, the Committee expects that the \$1,200.00 quota will be more than doubled.

The local Committee wishes to thank the organizations and the appointed canvassers for their untiring efforts in this work; the Lions, Rotarians and Vets, who handled the canvass, and to the public for their generous contributions, which have again put Raymond district "OVER THE TOP."

Dr. and Mrs. F. M. Hall are in Victoria, B.C., this week, having taken the plane from Lethbridge Wednesday when the Dr. received word of the death of his brother in the seaport city.

Miss Rachel Romeril, who has spent several weeks past in the Cardston district is home again now, having returned the end of the week.

All unemployed men from 17 to 69 inclusive required to register for unemployment Order effective June 1. Men living within five miles of a city, town or village in which an Employment and Claims Office of the Unemployment Insurance Commission is situated will register in person at such office. Men living outside such areas will register at nearest post office.

For sale at all good drug stores everywhere.

### WEEKLY LETTER EGG QUALITY

The time of the year has arrived when maintenance of high quality in eggs requires more care and attention than during the winter months. For the specialized producer, who keeps his birds confined there is no difference, but the small flock owner usually turns his birds out as soon as the weather is favourable. That is when egg quality usually takes a tumble.

Egg quality may be divided into two parts, namely interior quality and exterior quality. The latter we can see directly where as interior quality can be determined only after the eggs are broken or by expert candling. Two things, cleanliness and soundness of shell, are required for high exterior quality. Anyone who has been offered dirty eggs will know how repellent they are. While the dirt may be harmless in itself it leaves the impression of carelessness in production that is associated with poor interior quality. We all know what attractive packaging does to the buying public and a dirty shell certainly is not attractive. Dirt never leaves a good impression in connection with food products.

Birds that are permitted to roam at will will get their feet dirty and will carry this dirt into the nests and thus on to the eggs. The remedy is obvious

enough. Keep the bird, houses and nests clean and dirty eggs will be practically non-existent.

Eggs with cracked or weak shells are difficult if not impossible, to handle, and certainly cannot be shipped any distance without trouble. Proper feeding of the birds with balanced rations rich in minerals and vitamins will ensure strong shells. Care in handling the eggs will prevent cracking of the shells.

Feed is the main factor influencing interior quality and it is apparently a surprise to many people that the quality and flavor of an egg can be affected by the feed the birds consume. Permitting the birds to forage around the farmyard and in the manure pile is about the quickest, cheapest way of getting poor interior quality. And yet there are people who wonder why their eggs can't get top grades for their eggs.

Most people know how to handle chickens properly or they can soon learn how if they care to obtain information that is available at the Lethbridge Station and many other places. Despite some of the remarks that have appeared in the press recently about the possibility of easing off on grading because the eggs are broken and dried for Britain, the fact remains that a high quality dried egg product cannot be made from anything but high quality eggs.

## Locker Storage

IT HAS BEEN NOTED THAT THERE ARE NUMEROUS PEOPLE IN THE DISTRICT WHO DESIRE COLD STORAGE LOCKERS INCORPORATED WITH THE CHEESE FACTORY.

PROVIDING SUFFICIENT LOCKERS ARE CONTRACTED AND ONE YEAR'S RENTAL RECEIVED, WITHIN THE NEXT THREE WEEKS, THIS DESIRABLE FEATURE WILL BE INCLUDED WITH THE ORIGINAL PLANS.

ARRANGEMENTS MAY BE MADE WITH ALVIN W. JONES AT THE BAKERY, ERNEST JENSEN AT THE TREASURY BRANCH, OR AT THE RECORDER OFFICE.

SEEDTIME and HARVEST  
By Dr. K. W. Neath  
Director, Agricultural Department  
North-West Line Elevators Association

Our laboratory has made duplicate germination tests and sent out reports on 9,075 seed samples of cereals and flax during the past winter. This shows clearly that services we offer are in demand among farmers and are appreciated by them. Grain buyers are pleased to be in a position to assist their patrons in this way.

An equally, if not more, important matter follows.  
Why have we in the prairie provinces fallen so far short of our flax average goal? Of course, there are several reasons. Some land is unsuitable, grasshoppers are a threat in some districts and it is not a particularly nice crop to handle. However, one of the chief reasons for fighting shy of flax is the prevalence of weeds.

Every farmer should know the names and habits of all weeds on or near his land. Perhaps this sounds like free advice which is worth only what it costs! Not so; it is a plain statement of fact. Any farmer who cannot recognize all important weeds may be sheltering some very dangerous ones without knowing it.

In order to have weeds accurately identified without cost, it is only necessary to deliver specimens (complete with roots and flowers—if possible) to any grain buyer of line elevator companies associated with this Department. Grain buyers will forward them to our office, and we will report promptly.

We feel inclined to apologize for dealing with a subject so unhappy; but the weed problem gets worse year by year, and we are ready and willing to help.

Our 72-page bulletin "An Illustrated Guide to Prairie Weeds" is available to farmers free. Consult your local grain buyer or write to us for a copy.

### DEPARTMENT OF NATIONAL DEFENCE FOR AIR

Office of Chief of the Air Staff  
Ottawa

27th May, 1942.

Mr. F. M. Palmer:  
Raymond,  
Alberta.

Dear Mr. Palmer:

I have learned with deep regret that your son, Sergeant Gerald Searing Palmer, previously reported missing on Active Service in Canada, is now presumed to have died on November 4th, 1941. I wish to offer both you and Mrs. Palmer my sincere and heartfelt sympathy.

It is so unfortunate that a promising career should be thus terminated and I would like you to know that his loss is greatly deplored by all those with whom your son was serving.

Yours sincerely,  
G. O. Johnson  
Air Marshal

Deputy Chief of the Air Staff.

While Raymond received only a shower of rain, Wednesday, Cardston district and almost east to Magrath received a heavy downpour. Roads from Cardston to Spring Coulee Wednesday afternoon were covered with water.

Grain drills were busy again this week, especially in the ridge country south of town, where, because of the rain, only about half the wheat acreage is seeded. It is expected that a week of good sunshiny weather will see just about all of the grain seeded in that part of the district.

Mr. and Mrs. S. B. Card spent part of last week in Calgary, returning home Saturday.

**SEEDTIME and HARVEST**  
By Dr. K. W. Neathby  
Director, Agricultural Department  
North-West Line Elevators Association  
Barley for Choice Bacon  
Bacon which is relished by the British consumer can only come from the right kind of hogs fed in the right way. That consumer happens to be Canada's best customer for this commodity. No matter how ideal the type may be, a hog will not yield good bacon unless it receives the right kind of feed. Which of the common grains is the best feed for bacon hogs has been the subject of a series of interesting tests conducted by Dr. E. W. Crampton, animal nutrition expert at Macdonald College, Quebec. The work was carried on under the auspices of the National Barley and Flax Committee. Western grains were used in the experiments. His first test was designed to determine the relative feeding values of barley, oats and corn. Barley was shown to be definitely superior to either oats or corn, whether rate of gain, efficiency of feed or carcass quality were measured. Oats resulted in slower gains and unfinished carcasses. Corn fed hogs were consistently degraded because the carcasses were oily, soft, and overfinished.

The next test was made to compare the feeding values of barley and wheat. This was suggested by the Barley Committee because of the surplus of wheat and the rapidly expanding swine industry in the prairie provinces. The results of this test showed that barley fed hogs yielded more suitable carcasses, but those getting wheat made faster gains. These results would suggest that wheat and barley should make an ideal combination to secure maximum efficiency of feeding, and at the same time obtain high quality. This is precisely what Dr. Crampton proposes to study in a test now in progress.

In the meantime, farmers are being urged to grow more barley to feed more hogs, which are needed in Canada's expanding war program.—Contributed by T. B. Pickersgill.
